always the best climate

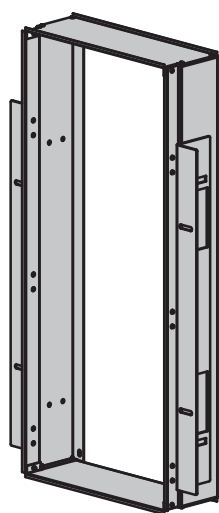

Zehnder Zenia

Zenia from the Zehnder Studio Collection is an electric towel warmer, towel dryer, infrared radiator and boost heater all-in-one – in the form of an integrated unit that perfectly blends into modern bathroom architecture thanks to its minimalist design. The revolutionary Zehnder Zenia thermal comfort unit supplies pleasant heat quickly and ensures ultimate comfort heating in your bathroom independently of the central heating system. At the same time you can dry and warm towels behind a visually appealing heated glass door. Available in white or black.

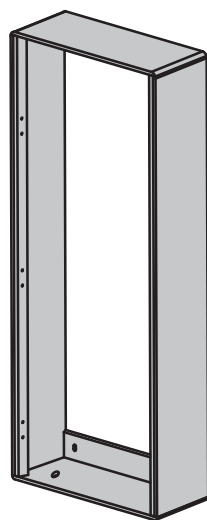

Advantages

- Perfect integration into modern bathroom architecture due to in-wall installation and minimalist design
- Hidden storage space ensures a tidier bathroom
- Heat available on demand for pre-heating rooms and towels with the integrated boost heater
- Comfortable radiant heat from the heated glass door quickly creates a feeling of cosiness
- The fast drying function significantly reduces the build-up of bacteria on damp towels and textiles
- Intuitive operation with the control panel for heated front face, boost function, towel warming and fast drying function
- Customised solution with personalised daily and weekly programmes via an app
- The thermal comfort unit provides dry, warm towels and a comfortable room all year round
- The flat fronts simplify cleaning of the inner case and heated glass door
- Installation next to a shower or bathtub enables flexibility during the planning phase
- High energy efficiency due to compliance with the European Ecodesign Directive reduces energy costs
- Low energy consumption of less than 0.5 W in stand-by mode for increased energy efficiency
- Available for electric operation
